

OUT OF THE BOX INSURANCE

Have you been denied insurance due to your Polybutylene (PolyB) plumbing or a previous water claim? Or are you concerned about the devastation a water loss could cause to your family and home (or insurance premiums) ?

At APRIL Canada we recognize and respond to insurance trends, by providing innovative solutions to common Homeowner Insurance problems.

Through our partnership with Damage Control Pro, we can now take this one step further. Through installation of The Aquatrip, we are able to offer even better coverage options and potential premium savings.

We can also help with other insurance issues such as:

- Claims history
- Non payment
- First time insurance/insurance gaps
- Rented or Vacant dwellings
- Non standard or individual mortgagees

Please contact your insurance broker to discuss how we can help.

Damage Control Pro

— Products and Program —

WHO'S WATCHING YOUR HOME WHILE YOU'RE NOT?

-  Protect your home against lost water and unnecessary water damages.
-  Install and save on your home insurance today! Ask your broker how!
-  We have installers! Visit dcpro.ca "find an installer link" we will bring the device that fits your budget to you!
-  Products starting under \$200 plus installation.

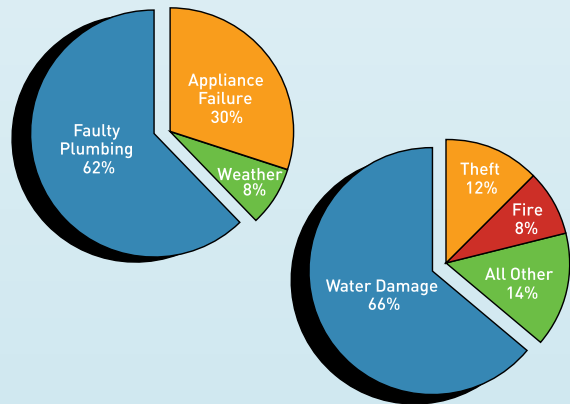

What is The Aquatrip ?

The Aquatrip is a permanently installed valve, that will minimize water loss and reduce damages caused by leaks, vandalism, burst, or carelessness. The AquaTrip monitors the flow of water into a property and will shut out the water supply automatically if there is a leak, pipe burst, or a tap is left running. Fully programmable to fit most properties, with no interference of normal water use!

WHY EVERY HOME SHOULD HAVE ONE?

Water damage causes **twice** as many claims as any other exposure. We think about fire, wind and break-ins, but water damage causes more damage than all of the other exposures combined.

You think it will never happen to you, but how would you feel if your home was destroyed when you got home due to water damage resulting in months of inconvenience and repair. Believe me, it is a devastating type of loss, and easily avoided with the installation of ONE device!

2 Simple Steps To Save On Your Insurance & Protect Your Home

STEP 1 Find An Installer

Find trained installers in your area. Our installers will supply the correct model product for your home.

STEP 2 Register Your Product

Once the installation is complete, register your product to qualify for home insurance incentives through one of our Partner Insurance Companies.
