

MANUFACTURING INSURANCE

Canadian manufacturers and wholesalers are experiencing new challenges. Retailers are starting to require that all manufacturers and/or distributors carry their own property and liability insurance in order to have their product on the shelves.

In addition, one of the characteristics of the Canadian industry is its relationship with the U.S. as a key trading partner. This leads to a requirement of coverage for U.S. product exposures and physical locations, such as U.S. based sales and support offices.

To help you support your clients growth, we're delighted to present our tailor-made insurance solution.
